

School Council

School Council is very good. We are good at learning.

A Governor's Visit to the School Council

I was very privileged, as a Governor, to be invited to attend a School Council meeting. The makeup of the committee had changed so that different delegates from each class were now appointed for a term at a time. A couple of 'old hands' from last term were also there as mentors. It was interesting to see that some of them had come equipped with prompt sheets to help them remember their ideas or those of their class. This was a very interesting and enjoyable session. It was great to see the students engaged, listening to each other and very happy to talk.

Janella Thow (Governor)

Maths Websites

We are excited to let you know about a great new website we have subscribed to this year, which will continue to support our pupils in developing skills in maths. We will be using the website in maths lessons at school, but would like to give you the opportunity to use the programme at home with your child as well.

In addition to this website, we will continue to use the MyMaths programme in school too, which can also be accessed by parents and carers at home. Below are the links to the websites, usernames and passwords for you to access them from home. These links can also be found on our school website.
